

CENTURY

LIGHTING ART DESIGN

2026 Project Highlight Look Book

Welcome to our “2026 Project Highlight Look Book”.

The following pages contain images of jobs sites where Century Lighting and our designers worked in concert to create the perfect lighting fixture for that particular environment.

Century will bring your vision to life with custom lighting, guiding you through a collaborative design process. From the initial concept to the final product, they'll blend great design, quality craftsmanship, and attention to detail to elevate any space.

All of the lighting shown was produced in North America.

HAZEL & AZURE

NATIONAL LANDING
NATIONAL LANDING

Lighting defines the experience at Hazel & Azure, shaping spaces with warmth, rhythm, and sculptural presence.

A cascading chandelier of delicate porcelain ginkgo leaves anchors the soaring volume, introducing softness and movement against strong architectural lines. Precisely suspended and gently illuminated, each piece enhances depth and atmosphere throughout the interiors.

Together, the lighting reinforces the residences' modern, refined aesthetic.

BRASS RADIAL GLOBE CHANDELIER

This sculptural chandelier features a radial brass frame with opal glass globes, creating a balanced interplay of structure and softness. The warm metal and diffused light bring architectural presence while maintaining a refined, inviting glow.

TAPERED CONE PENDANTS

A series of elongated matte black pendants create a striking linear statement above the table. Crafted from precision-fabricated metal with a seamless aluminum body and integrated LED downlighting, their tapered sculptural form delivers focused illumination while adding height, rhythm, and contemporary contrast to the space.

CAFÉ LIGHTING

Matte black metal dome pendants with warm-toned interiors provide focused downlighting over the banquettes, while opal glass globe pendants introduce a soft, diffused glow above the bar. Complemented by recessed and linear fixtures, the layered mix of metal and glass creates warmth, contrast, and cohesive architectural depth.

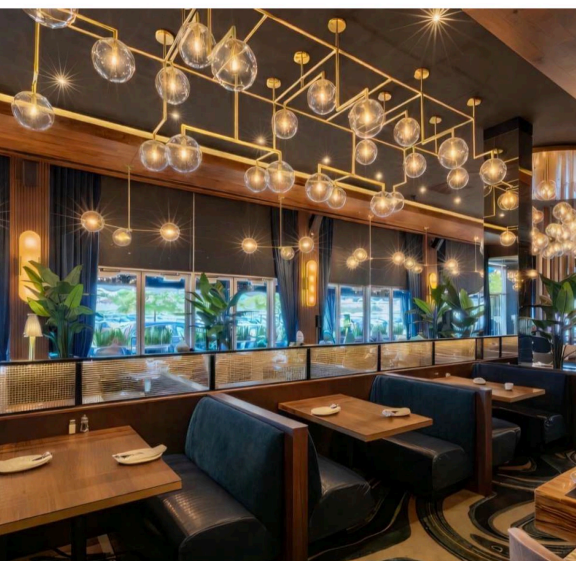

ROPE SUSPENSION FIXTURE

A slim linear LED bar is suspended by oversized braided black rope, merging industrial strength with refined restraint. Clean, even illumination anchors the communal table, transforming functional light into a sculptural focal point.

TABLE 5I

The overall design concept emphasizes a modern, vibrant, and casual atmosphere, featuring thoughtfully curated elements such as custom mirrors and lighting manufactured by Century, to enhance the space, create depth, and add visual interest, alongside complementary greenery and décor.

The lighting features a polished brass framework paired with clear glass globes, creating a balance of structure and transparency. The reflective metal enhances the warm glow of the illumination, while the glass diffuses light softly throughout the space. Together, the materials deliver a refined, luminous presence that feels both architectural and inviting.

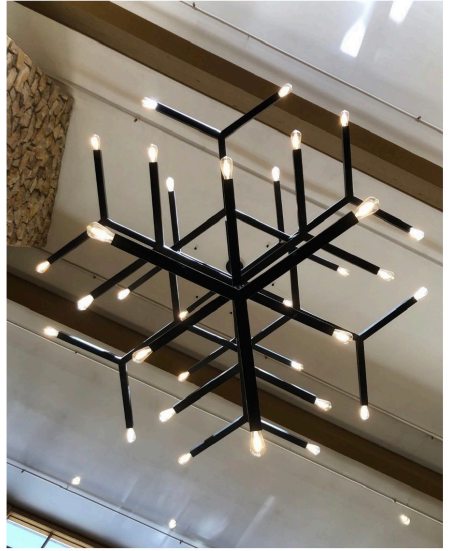

The custom arched mirrors were thoughtfully crafted to define the space with architectural rhythm and integrated illumination. Their backlit halo adds warmth and dimension, enhancing both light and atmosphere while visually expanding the room.

HUNTLEY LODGE AT BIG SKY RESORT

MULTI-TIER SNOWFLAKE INSPIRED CHANDELIER

Inspired by the symmetry of a snowflake and the branching forms of winter trees, this sculptural fixture features layered geometric arms radiating from a central spine. Crafted in matte black metal with exposed warm LED lamps, it balances crisp architectural lines with a soft, ambient glow rooted in its alpine surroundings.

HEXA ARRAY

DOUBLE TREE - PHILADELPHIA

An Arrangement of faceted forms creates a refined geometric installation that reads as both structured and sculptural. Each hexagonal volume emits a warm, diffused glow, softening the crisp edges of the metal housings and introducing a sense of quiet sophistication.

ATRIUM HALO

CAESARS
ATLANTIC CITY

A cascading composition of illuminated rings descends through the atrium in a fluid, sculptural gesture. Interwoven with delicate points of light, the installation creates a sense of motion—like a luminous vortex suspended in air.

The layered geometry draws the eye vertically, transforming the volume into an immersive visual experience.

ORGANIC CASCADE

MOUNT SINAI CANCER CENTER
BALTIMORE

A flowing composition of layered, leaf-like elements creates a sculptural installation that feels both organic and dynamic. Suspended delicately from above, the form moves with a sense of natural rhythm and lightness.

Integrated illumination weaves through the structure, adding warmth and depth to the space.

GILDED COLONNADE

ADELE STAMP
STUDENT UNION
COLLEGE PARK, MD

A cascading composition of illuminated rings descends through the atrium in a fluid, sculptural gesture.

Interwoven with delicate points of light, the installation creates a sense of motion—like a luminous vortex suspended in air. The layered geometry draws the eye vertically, transforming the volume into an immersive visual experience.

SOLENE PENDANTS

LUCIE RESTAURANT
TORONTO

Layered disc forms paired with softly glowing glass globes create a refined ceiling installation that balances geometry with warmth. Each pendant introduces a halo-like presence, with the discs reflecting light outward while the central globes provide a gentle, ambient glow.

BRUNDLE BAR CHANDELIER

1000 SOUTH CAPITOL
STREET – WASHINGTON, DC

A refined architectural framework extends across the space, supporting a series of suspended glass elements with precision and clarity. The open metal structure defines volume without visual heaviness, allowing light to move freely while maintaining a strong geometric presence.

VELUM GRID

AMADEUS
TECHNOLOGIES
MIAMI, FLA

A clean, recessed grid of illuminated panels defines the ceiling plane with precision and clarity. The uniform composition delivers soft, even light while reinforcing a strong architectural order. Seamlessly integrated into the surrounding structure, the fixture minimizes visual clutter while maximizing performance.

coexist in perfect

CIRRA SKYA

MASTEC MIAMI

Rhythmic field of softly contoured forms floats beneath a luminous ceiling plane, creating the impression of a sculpted cloudscape. Each element appears to hover weightlessly, its gentle curvature diffusing light into a warm, ambient glow.

ALORA VERDE

SUNRISE SENIOR
LIVING
QUADRANGLE, PA

A seamless fusion of nature and illumination, this suspended ring installation transforms light into a living element. Lush, cascading greenery wraps each circular form, softening the architectural lines and introducing organic movement overhead.

LINEN ARRAY

BRIGHTVIEW SENIOR LIVING
FAIRFAX, VA

A composition of softly illuminated volumes defines the space with quiet precision and balance. These suspended lantern forms, wrapped in textured diffusers, emit a warm, even glow that enhances both comfort and clarity.

ALDER BEAM

BRIGHTVIEW
SENIOR LIVING
FAIRFAX, VA

A striking expression of balance and repetition, this elongated pendant composition delivers both precision and warmth. Cylindrical illuminated forms are evenly spaced along a bold linear frame, creating a visual cadence that draws the eye across the space.

Cylindrical illuminated forms are evenly spaced along a bold linear frame, creating a visual cadence that draws the eye across the space.

AUREN RINGS

CAESARS
DANVILLE, VA

A dynamic interplay of form and light, this sculptural ceiling installation weaves together a series of luminous rings in varying scales. Each element overlaps with effortless fluidity, creating a sense of motion suspended in space.

The soft, continuous glow of the illuminated bands contrasts elegantly with the warm metallic finishes, adding both visual richness and ambient depth.

RADIANT STARBURST

MIAMI WORLD CENTER

A bold expression of light and symmetry, this sculptural chandelier radiates outward in a striking starburst form. Slender illuminated elements extend from a central core, creating a sense of energy and brilliance that instantly defines the space.

CRYSTAL CONSTELLATION

SAINT LUCIA

A breathtaking display of light and movement, this multi-tiered installation evokes the elegance of a floating crystal galaxy. Delicate strands descend from above, each point of light shimmering like suspended stars, while clusters of faceted elements form luminous spheres throughout the composition.

GILDED ANTLER

LAKE SARANAC RESORT
LAKE SARANAC, NY

An expressive fusion of nature and artistry, this chandelier reimagines organic form through a lens of refined luxury.

Branching, antler-like elements extend outward in a complex, sculptural composition—each curve catching and reflecting a rich, golden glow.

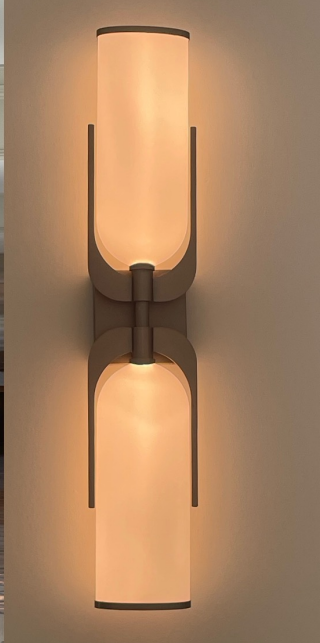

AXIS DOUBLE

THE PROMENADE BETHESDA

A study in balance and proportion, this elongated wall sconce delivers a quiet yet sophisticated presence. Dual cylindrical diffusers are framed by slender metal accents, creating a layered composition that feels both architectural and refined.

The soft, ambient glow enhances surrounding materials while providing a warm, welcoming atmosphere along corridors and gathering spaces.

ORBIT VANITY

THE MERIDIAN BETHESDA

A clean expression of modern minimalism, these suspended circular luminaires bring clarity and elegance to the vanity environment. Each illuminated ring delivers a soft, even glow, ideal for both task lighting and ambient enhancement. Suspended in repetition, the forms create a striking visual rhythm, while their reflection in the mirror amplifies depth and dimension. The contrast of crisp white light against dark hardware introduces a refined, contemporary edge. Sleek, functional, and visually impactful, this installation transforms everyday lighting into art.

AUREX RING

BRIGHTVIEW SENIOR LIVING FAIRFAX, VA

A refined circular composition defines this elegant chandelier, where a bold ring form anchors a series of softly glowing cylindrical luminaires. Evenly spaced, each illuminated element creates a balanced rhythm that enhances the fixture's clean geometry.

TIERED CRYSTAL DRUM

DOUBLE TREE -
PHILADELPHIA

The warm metallic framework provides structure and contrast, while the overall drum silhouette maintains a clean, architectural profile. Light is diffused evenly throughout, producing a soft glow that enhances both the fixture and its surroundings.

JEWELLED WALL

DOUBLE TREE -
PHILADELPHIA

A sophisticated interplay of material and symmetry, this wall arrangement pairs sculptural sconces with a bold, decorative mirror to create a refined focal point. The circular mirror, framed with faceted metallic detailing, introduces rhythm and visual texture—echoing the precision of fine craftsmanship.

REFLECTIVE GLOBE CANOPY

INGRAM MANOR
PIKESVILLE, MD

A dense field of suspended mirrored spheres forms a luminous ceiling installation that blurs the line between fixture and architecture. Each globe reflects its surroundings while emitting a warm, focused glow below, creating a dynamic interplay of light

Thank you for taking the time to look through
our “2026 Project Highlight Look Book”.

Please keep in mind that this is a small sampling
of the many jobs we've done.

We'd be honored to help with your
next lighting project!
